C. G. I. T. CONFERENCE

Last Friday, Saturday and Sunday Red Deer acted as the hostess for the 'teen age girls' and C.G.I.T. leaders from Central Alberta.

Delegates came in from all the surrounding centres within a radius of sixty miles to attend the C.G.I.T. conference. Close to a hundred delegates registered, the majority being from outside points, who return taking the spirit of the conference with them to the several local centres. Thus fulfilling the real aim of the conference.

From the beginning to the very closing the conference was marked with a keen spirit of enthusiasm. All the sessions were held in the Methodist church.

The opening banquet, Friday evening, was provided by the ladies of the Presbyterian, Baptist, Methodist and Anglican churches. About 135 were present. The ladies deserve great mention for the exceptionally fine banquet provided.

While yet seated round the festive board, a program of toasts marked both by path and pep proved of interest and uplift to the delegates. Flo Gaetz, President of the C.G.I.T., acted as toast mistress.

Delegates from the various churches and country, after which the following took part:

Welcome to delegates by Rev. McCombs.

Introduction of delegates by groups by the local ministers.

Mrs. Malcom, of Olds, replied with greetings from the visitors.

Mrs. Gaetz, representing the C. S. T., extended greetings on behalf of the Texas boys.

Grace Miller proposed the toast to the hostesses, which was responded to by Mrs. A. H. George.

Mrs. C. Hunter, of Calgary, proposed a toast to the 20th Century Maiden, pointing out the advantages of modernity and the joys of which the girl of today has.

It was then by three girls, Edna Strong of the Baptist Church, Edna Stoll of the Methodist Church, and Stella Johnson of the Anglican Church, who gave the toast to the Knights of the 20th Century, which was responded to by Will Lewis of the Texas boys.

Mary Robertson rendered the solo, "My Task."

Mrs. Margaret Parsons proposed the toast to the 20th Century Maiden.

Mrs. Gaetz responded in a very able manner. She referred to the four colors which the maidens of the 20th century should have: blue for truth, white for purity, and yellow for service.

That I may stronger be, to do and dare.

That truth and beauty may abide in me.

That I be a friend, and prove from day to day sincere and kind, and at work, at play.

To follow ever upward life's high quest.

And find, through knowing God, my very best.

H. C. Olson pronounced the benediction, after which most of the girls proceeded to the school auditorium to hear Miss Marsh's lecture on "A Life of Service."

Saturday morning all the delegates assembled at 9.30 a.m. for a service of worship. Miss Story spoke on the "Aim of the Conference."

The following officers were elected: Miss Flo Gaetz, Red Deer, President; Miss Constance Evans, Ponoka, Vice-President; Miss Florence Gamel, Lacombe, Secretary.

The conference broke up in groups for discussion on what they conceived to be a C.G.I.T. girl.

At 1.30 all the leaders met. Miss Story addressed the meeting on the "C.G.I.T. Program and the Girl."

At 3.30 Miss Hunter led all the girls in competitive games in the Armory, and gave a talk on the value of games to the girls.

The educational tour, at 7.30 was well worth any person's time. Various S. S. rooms were visited, with an abundance of articles and trinkets from India, Africa and China. Much credit is due to the conference, and to the splendid exhibit.

The pageant and address by Mrs. Carson on vocations for girls was very helpful and interesting.

Mrs. Irving spoke on the place of books in a girl's education, and the value of good books. The list of books she recommends will be published somewhere in this issue.

Kathleen Smith favored the conference with a vocal solo, and Zeim Doyles later with a piano solo.

Mrs. R. L. Gaetz spoke on the place of music, and Rev. Brown gave an interesting talk on "The Girl's Resolutions."

The resolutions committee of the conference brought in the following findings:

1. "That the hearty thanks of the delegates attending the conference be tendered to the following: Mrs. O. W. Thorne and helpers of the program committee; Mrs. Sanders and helpers of the exhibit committee; Mrs. A. H. George, publicity convener; Mrs. T. Seanecke, convener of the town and country tour; Mrs. H. C. Olson, business convener, also to Miss W. G. Gaetz, together with all others who, through their interest and help, have made the conference a success.

2. "That a Canadian Girl in Training is one who guides her life to ideal womanhood the four fold standard which help her to develop as follows:

1. To cherish health.
2. To seek truth.
3. To know God.
4. To serve others.

3. "That each delegate endeavor to have the group she represents live up to the standard as expressed in the following:

MEMORIAL HOSPITAL DANCE

The annual Memorial Hospital dance, on Friday evening, proved very successful, and the big crowd that attended, despite the cold evening, enjoyed themselves immensely. Bone's Orchestra was in good form, and the refreshments up to the usual standard set by the ladies. A new experiment was tried, in starting the dance at 8.30 and concluding at 1.00. This was apparently better viewed favorably by a majority of those present.

JAMES B. GAETZ DIES SUDDENLY

With startling suddenness, James Beaumont Gaetz passed away at the Memorial Hospital on Sunday morning, November 19, 1922.

It will be remembered that Mr. Gaetz was injured on November 4th, when he was struck by a car. He was taken to the hospital, where he remained for some time, but his condition was such that he was unable to leave.

He was born in Scotland, and came to Canada in 1886, and took up a homestead south of this city, known in later years as the Olson farm. During the war he was in the Canadian army, and was wounded in 1918.

He was married to Mrs. A. H. Gaetz, and they had three children: a son, James, and two daughters, Mary and Elizabeth. He was a member of the Presbyterian church.

He was a very kind and generous man, and was well liked by all who knew him. He was a devoted husband and father, and his death is a great loss to his family.

His funeral will be held on Tuesday, November 21st, at 10 a.m., from the Presbyterian church. Burial will be in the cemetery.

The funeral will be officiated by Rev. H. C. Olson. Friends are invited to attend.

Mrs. Gaetz is survived by her three children and several relatives. Her death is a great loss to the community.

His death was a sudden one, and his family is in great grief. His funeral will be a simple one, but it will be a fitting tribute to his life.

His death is a great loss to his family and to the community. His funeral will be held on Tuesday, November 21st, at 10 a.m., from the Presbyterian church.

Ja. Burgess, of Tacoma, Wash., is visiting his sister, Mrs. D. W. McKeon, Clearview.

Don't forget the L.O.D.E. whist drive in Alexandra Hall, Friday evening, November 24th.

Dr. Huels will leave for the Coast on Saturday. He will only be away a week or two this trip.

The Curling Club will hold their annual dance in the Armory on Friday evening, December 15th.

Come and hear Staff Captain Larson in the Salvation Army on Thursday evening, November 23rd, at 8 p.m.

C. C. Fulton left Monday for Rocky Mountain House, where he has secured a position in Driscoll's store.

Business bazaar, home cooking, and business men's supper by ladies of the Red Deer, Saturday, December 2nd, in Alexandra Hall.

Tickets for the skating season are out, and can be procured from the Secretary of the Curling Club, Mr. Mirrie, at the "Bank."

Hewson & Sons lost one of their valuable horses, the driver, from acute indigestion. This animal was one of the well known prize team.

Frank Petterich is in the city. He heard a rumor that he is likely to come back to the city, and is now in the city.

The Lord Bishop of Calgary will administer the Rite of Confirmation of the St. Mary's Episcopal Church on Sunday evening next. The Bishop will preach at the morning service.

There was a slight snowfall Friday night, and Saturday night was the coldest of the season. The day was a bright, clear day, with a light breeze.

Mrs. Dr. Crumley, who had a slight stroke, is now recovering. She is holding her own and showing slight improvement. Her son, Elmer Crumley, is home on leave from the coast.

J. E. Welton writes from Vancouver that they are nicely settled now. One of the first pleasant treats they had was a visit to the coast, where they were very well received.

Mrs. J. T. Holmes, secretary of the local Red Cross, and also secretary of the Red Cross, is now in the city. She is holding her own and showing slight improvement. Her son, Elmer Crumley, is home on leave from the coast.

The meeting of the Women's Missionary Society will be held in the Methodist Church on Thursday, at 4 p.m. instead of Friday afternoon as previously announced. A hearty welcome is extended to all women.

J. H. Green, representing the Radio Corporation, Calgary, was in Red Deer last week, and converted the local radio station, which was in a building in 1916.

The workmen employed in the common building room were using gas on the rubber floor of the room. A match lying on the floor was scraped into a fire by a workman, and in an instant the whole air was a mass of flames. The papers on the floor caught, and before the fire was extinguished a good many of them were destroyed. The damage otherwise was slight.

A nice improvement.

Allan & Stephen, druggists and stationers, have just re-fitted their store with the newest type Pyramid Sign. They are pleased to report that they are going to delete the 25th next year.

Ed. Wodolicka's wits while transcribing the 21st in his order of merit of all the batteries in the 78th Battery was 21st in the order of merit. They are going to delete the 25th next year.

Dance in the Orange Hall, Friday evening, at 8.30 p.m., England's orchestra.

The Curling Club hope to have ice for skating and curling the end of this week.

Miss Mary Day, daughter of Mrs. J. P. Day, is very ill with pneumonia. She is being treated by Dr. Huels, and is expected to recover.

Mrs. W. Dean wishes to deny the rumor that her cows are tubercular, as the animals have been tested by a veterinary surgeon and found to be free from disease.

Chief Streetfield laid a charge against A. P. Adams last week for non-support of his wife, and for neglecting his duties as a father. He was given a month's probation, and was ordered to pay \$25.00 a month towards his wife's support, and to be obedient to the Chief as to his reports.

It is interesting to note that the question of long skirts has been settled. On October 23rd, the New York Federation of Women's Clubs reported that 300,000 women voted unanimously to wear dresses no longer than the knee.

The form of the skirt, which was early as possible, and probably by December 1st, will be the This does not exhaust the list by any means, merely a few suggestions. Our store is crowded every day. No matter how often you have called you will always find something of interest, new stock laid out, lower prices on lines that are not moving quickly, specials that you would not miss for anything, and some ead day the sudden end of the sale. Therefore, if you see anything you want, get it, get it quick, you may not have another chance and you will never have a chance to get it cheaper.

MCPHERSON BROS.

WEEKLY NEWS

BULLETIN

Issued by Publicity Commissioner,
Government Buildings, Edmonton.

No Income Tax Next Year
There will be no provincial income tax legislation introduced at the coming session of the Legislature, according to advice sent by Premier Greenfield to the Calgary Board of Trade, in answer to an enquiry. The Premier has stated that it is not the intention of the government to advance this legislation at present.

More Rural Phones
As a result of a campaign launched by Hon. V. W. Smith, Minister of Telephones, there has been considerable increase in the number of rural phones now in use, and the statement is made that the government now controls 32,000 phones.

Seed Grain Being Sold
The surplus seed grain of the farmers of the province, which is being handled through the government cleaning plant at Edmonton, is now being offered for sale by the crop branch of the Department of Agriculture. Requests for this grain are now being received at the office of the branch and those who wish to purchase should apply there.

Big Dairy Convention.

One of the largest dairy conventions ever held in Alberta is billed to take place at Calgary, January 23 to 25, when the dairymen of all Western Canada will meet there in annual conference. Delegates from the four western provinces will be in attendance. The Alberta provincial dairy convention will be held at the same time, and a very large gathering of dairymen during that week is expected. The convention will discuss all branches of dairymen and the problems attendant upon each. The recently inaugurated system of government grading of cream by the provincial department of agriculture, which has proved such a success, will be an interesting topic for discussion.

New Train Service

Train service has now been inaugurated over the twelve-mile extension of the Alberta Government Railway west of Lacombe. There will be now three trains a week over the line from Lacombe to the new terminus and return.

New Irrigation Project.

Work on the new United Irrigation project near Cardston has been completed, and the project will be in use next spring. The sale of \$450,000 of debentures, which brought a premium of \$10,000, will likely be sufficient to cover the cost of the project, without the necessity of issuing the further \$75,000 at first contemplated. This will make the capital cost of the project about \$22 an acre.

Many Exhibits at Chicago
Alberta will have a considerable number of exhibits of seed grain at the International Hay and Grain show at Chicago next month. Already there are over fifty entries and as many more are expected.

Poultry Show

The provincial poultry show will be held in Edmonton during the week of January 15, and the prize list is now in course of preparation.

Home for Feeble-minded

Rapid progress is being made on the new home for the feeble-minded children just north of Edmonton, and it is expected that the new institution will be ready for occupancy early in the year. There are now two hundred inmates ready to be housed in the new home. Occupational work will be a strong feature of the system of treatment for patients. Dr. W. J. McAllister is to be the superintendent of the home. He is now engaged in special training at the Waverley Institute in Massachusetts.

May Settle in Alberta

In view of the fact that a large number of British officers will be demobilized from the army in India shortly, and that these men have a small amount of capital and are desirous of securing land in the Western Dominions, an effort is being made to interest them in Alberta. Major P. Yeats Brown, one of these officers, is now on a tour of Canada, and was in Alberta the past week for the purpose of gathering information and investigating conditions.

Information for Russia

An interested visitor to the Department of Agriculture at Edmonton the past week was D. N. Borodin, of the Russian Agricultural Bureau in the City of New York, who is traveling through Canada gathering information regarding farming conditions and farming methods, for the government of Russia, which is introducing some reforms in connection with farming in that country. Mr. Borodin was greatly interested in the new co-operative seed marketing plan recently inaugurated by the Department here, as well as the other co-operative schemes already in operation.

BIRD LIFE

Lecture to the Natural History Society of Red Deer

In the Assembly Hall of the Public School, on the evening of Friday, the 17th of November, a lecture was delivered under the auspices of the Red Deer Natural History Society by Miss Marsh of Pease Marsh, Ontario, the subject being Bird Life. Although the night was a rather cold one, and there were counter attractions, there was a good attendance, a satisfactory feature of which was the large number of boys and girls who followed the lecture with silence and attention, which was a tribute both to the lecturer and their own good sense. The chairman, most fittingly, Mr. J. J. Gaetz, whose generosity in establishing, under the auspices of the Society, a bird sanctuary in his

beautiful property at Geetz Lake, east of the town, deserves grateful recognition from the community. We understand that Mr. Gaetz refused a large sum of money for this property in order to preserve its character as a bird sanctuary.

Mr. Gaetz introduced the lecturer, and made a few remarks as to the sanctuary, where he said he would be glad to see any of the people of Red Deer who were interested in bird life. Miss Marsh then delivered her lecture. She began by telling her audience something of the difficulties which the keeper of a private bird sanctuary had to face from unscrupulous hunters and intruders, and of the advantages in this respect which were gained if the government took over such sanctuaries and gave its authority to their being respected. She went on to point out that the natural features of such sanctuaries must be preserved if birds were to use them. A sanctuary whose trees were trimmed and whose undergrowth was cut away in order to make a picnic ground or motor launch harbor was of no value to the birds. In addition to human enemies, birds have many enemies among their own kind, as well as among the animals, like squirrels and weasels. Miss Marsh described the destructive operations amongst small birds by the crow, and certain ingenious methods involving the use of a stuffed owl used by the guardians of sanctuaries to reduce the numbers of the crow tribe. She also told of the disfigurement of a marauding crow at the hands of rather the beak of one specimen of that heroic little fellow, the king bird.

With the aid of a magic lantern, the lecturer showed a number of most interesting and artistic slides illustrating many different birds in their nests and elsewhere, and told stories of their behaviour and intelligence in various respects. She suggested that certain of their activities pointed to a subconscious reasoning or intuition, a theory which, while interesting, seems not entirely convincing, and certainly open to discussion. The whole lecture was excellently delivered in a quiet and effective manner, and was followed by the audience with close attention and much enjoyment. At the close, on the call of Mr. Gaetz, they expressed their hearty appreciation of the lecture. The evening ended with the singing of the National Anthem.

Miss Marsh has written a book called "The Birds of Pease Marsh," the royalties from the sale of which she devotes to the cause of her bird sanctuary.

NEW PARTNERSHIP

Mr. C. L. H. Waldo, the Massey-Harris agent and grain dealer, is taking into partnership with him Mr. Geo. W. Thompson, of Alderson, Alta. Mr. Waldo had found his business increasing so rapidly that he decided that it was necessary to take in a partner with him in order to give real service to his customers. Mr. Thompson is a shrewd and experienced business man, and has been manager of the Alderson branch of the Finlay & Son Lumber Co. of Medicine Hat for the past eight years. Mr. Waldo feels sure that he has hit on the right man to assist him in his business. Mr. Thompson expects to move up to Red Deer with his family about December 1. The new firm will go under the name of Waldo & Thompson, and will have the best wishes of the district for their success.

THE BUSINESS TAX?

To the Editor of The News.

Dear Sir,—
The so-called business tax of 20% of rental value, as levied and collected for years in the city of Red Deer, is so manifestly unfair and unscientific that I believe I am justified in making the strongest protest I can against its continuance, at least in its present form.

In the first place, it is not a business tax, it is a rental tax. The amount of business done has nothing to do with the matter at all, and in this respect it violates one of the first principles of scientific taxation which demands that taxes should be based upon income.

The rental tax, as we have it, is grossly unfair to retail merchants and others who, by nature of their business, have to occupy commodious premises on the main street. A professional man with an office rented for \$25.00 per month may easily do more business than a departmental store with a rent of \$200.00 per month. When I say business, I mean net earnings and not turnover.

The tax as at present constituted is a detriment to both landlord and tenant. While rents in the majority of cases are low enough, when added to by 20% they become formidable, and in one instance at least have resulted in an empty store in the business section of the town, making it that much harder for the owner to pay his taxes. The tenant in this case moved to a semi-business street, where he does just as much business but pays less tax. As a matter of fact, the justice or common sense of a tax that operates thus? I think without further argument this proves my contention that this is a rental tax, and not a business tax.

It is necessary to labor the matter, as I am sure that all agree as to the unfairness of this tax. Taxes are never popular, but they are nevertheless necessary, and all good citizens realize their obligations to pay their taxes when convinced of the justice of the demand.

It is imperative, however, that a drastic change be made both in the by-law and in the assessment, which, as it stands today, is inequitable.

I appeal herewith to the citizens of the Edmonton Business Tax, which, with certain modifications, may be adopted here with beneficial results.

EDGAR G. JOHNS.

City of Edmonton Business Tax.

All businesses are assessed at a sum equal to the estimated value of the premises occupied, whether lands or buildings or both. The business tax payable is a fixed percentage of the amount of assessment, graded from 5% to 25% as per the following schedule, provided that where a license is charged for the privilege of carrying on the same business, the amount of such license is set off

against the amount of business tax.

1. Every person carrying on the business of a bank or banker, an express company carrying on business on or in connection with a railway, or steamboats or other vessels, a telegraph or telephone company, or a railway company, or cabaret, 25 per centum;

2. Every person carrying on the business of a wholesale merchant or wholesaler grain dealer, or of a commercial or manufacturers' agent, 15 per centum;

3. Every person practicing or carrying on business as a physician, surgeon, oculist, medical electrician, dentist, veterinarian, osteopath, chiropractor, or such like occupation, 15 per centum.

4. Every person carrying on the business of an insurance company, a loan company or a trust company, a land company or a leasing land corporation, or a company carrying on any other financial business, or an automobile dealer, or moving picture theatre, or vaudeville theatre, and every person practicing or carrying on business as a barrister, solicitor, notary public, conveyancer, 15 per centum;

5. Every person carrying on the business of a retail merchant, of a coal, wood or lumber dealer, lithographer, printer or publisher, including the publisher of a newspaper, photographer, theatre (other than vaudeville or moving picture theatres), concert hall, skating rink, or other place of amusement, or of a boarding stable, or a livery, or the housing of vehicles or other property for hire, or of a restaurant, eating house, or other house of public entertainment, but not including a hotel, and every person practicing or carrying on business as a civil mining, consulting, mechanical or electrical engineer, surveyor, or architect, insurance agent, real estate agent, financial agent, or

any other business not specially mentioned in this subsection, subject to the power of the council to classify such other business as hereinafter provided, 10 per centum;

6. Every person carrying on the business of a manufacturer, or of a workshop or of a repair shop, a greenhouse, a hotel, coal mine, brick yard, 5 per centum;

"And a manufacturer shall not be liable to be taxed as a wholesale merchant by reason of his carrying on the business of selling by wholesale the goods of his own manufacture on the land subject to such business assessment."

"As to any trade, manufacture, financial or commercial institution, premises occupied as warehouses or storerooms, businesses, occupations, arts, professions, or means of profit or livelihood not mentioned in the above schedule, the council may classify the same and may fix a different rate for each, and in so doing may place a wholesale business in a class distinct from a retail business of otherwise the same class, and may classify each building or part thereof according to the class of business carried on therein, and may fix a different rate or percentage for different classes of business carried on under the same roof, and for storerooms and warehouses or like appurtenant buildings that that fixed for the principal building, and may fix a different rate or percentage for different flats of buildings; provided always that said rate or percentage shall not exceed the said twenty-five per cent.

TO WHOM IT MAY CONCERN

I hereby certify that no other person than myself had anything to do with any challenge to debate with Mr. Amos Wilton.
(Sgd.) A. W. MARTIN.

a la Grace Corsets

We Are Making an Exquisite Display of

a la Grace Corsets

this week. C/C a la Grace Corsets are the outstanding fashionable corsets. Other corsets have come and gone. There have been fads and foibles, but for style, durability and comfort, C/C a la Grace are still unexcelled. It is for this reason that we sell them, and recommend them so highly.

We have a very complete stock in all sizes, and in all bust and skirt lengths. Also maternity corsets.

ANSWERS TO TAXPAYER

To the Editor of The News.

I desire to offer an explanation to the question of your correspondent in last week's issue, and signed "Taxpayer," that involves a good deal more than appears upon the surface. There are several agreements between what is now the Western General Electric Company and the Town of Red Deer, and it would take up too much space to discuss them clause by clause, but will quote a few of them and endeavor to show how they work out for the benefit and otherwise of Taxpayer and his fellow beneficiaries.

In the agreement made between the Western Telephone Co., afterwards bought out by the Western General Electric Co. (the present Co.) and the Town of Red Deer:

Clause 1: The system shall consist of a thoroughly up-to-date electric power house, equipped with the most approved electrical plant and machinery, including boiler room, engine generator, switch board, etc., capable of furnishing light and power as may be required for municipal, industrial, commercial and domestic purposes.

Clause 13 deals with the price to be charged at that time for light and telephone service.

Clause 15: That the price hereinbefore mentioned and charged for any of the foregoing services shall always be subject to adjustment by either the Corporation or the Company on the basis and principle that the prices charged for any of the said services shall approximate but never exceed the prices charged for any town or city in the North-West Territories, under similar conditions for the then existing conditions prevailing in Red Deer for like efficient services.

The remainder of the clause provides for arbitration on-prices to be charged.

And in consideration of the foregoing covenants and stipulations being strictly complied with in every respect by the said Company, the said Corporation covenants and agrees with the said Company, as follows:

"That the said Company shall have the exclusive right and privilege, for the term of twenty-five years, from the 1st day of January, 1912, lighting the streets of the Town of Red Deer as now or hereafter constituted, and for the purpose and for other purposes of the Company, including the distribution of light, power, telephone and other electrical purposes for municipal, commercial and domestic uses, etc."

3. And it is further provided and agreed between the said Corporation and the Company that the Corporation shall have the right and privilege of giving one year's notice in writing immediately next preceding the expiration of this agreement, to acquire by purchase all the plant, machinery, equipment, franchise and assets of the Company at the then actual cash value, etc.

4. And it is further agreed between the Corporation and the Company that in default of the Corporation failing or neglecting to give the necessary notice to purchase as in the preceding clause provided, then and in each case all the rights, powers, franchises and privileges as now or to be hereafter constituted under the agreement shall continue thereafter in full force, effect, power and operation with the right of the Corporation to acquire the same in the manner hereinbefore mentioned, by giving the Company the year's notice next preceding the termination of any succeeding ten years.

I have no intention of criticizing the town authorities who consented to this agreement. No doubt they did what they at that time considered was in the best interests of the town. Today we have to deal with the matter as it affects the city.

Some years ago the city went to arbitration over prices charged for electric lights, and the case went against them. Whether the time has again come for further efforts to be made is a matter for the taxpayers to take up, as considerable costs are involved and the City Council is very averse to spending more than is necessary under present conditions.

The fixing of rates for power is an arbitrary proceeding on the part of the Company, and it is a question for the consumer either to pay those charges or use some other form of power.

Recently I was on business in a neighboring town, and a small user of power (3 H.P.) said his rate was 9 cents per K.W. with 10% discount for cash, and a minimum bill of \$1 per H.P. Another, a large user, of 1000 H.P., paid 6 cents per K.W. with a 10% discount, and a minimum bill of \$1 per H.P. of motor. Contrast this with the schedule of charges in Red Deer.

The first 20 K.W. hours for H.P. capacity of motor, 20c per K.W. hour. The second 20 K.W. hours for H.P. capacity of motor, 16c per K.W. hour. The next 20 K.W. hours, per H.P. capacity of motor, 12c per K.W. hour.

The next 144 K.W. hours, per H.P. capacity of motor, 10c per K.W. hour. The balance of power used in any one month, 8c per K.W. hour.

By another clause the Company is exempt from all municipal taxation, with the exception of a small special frontage tax, their only taxation being for school purposes.

In clause 4 of an agreement, which the Company asks a consumer of power to sign, are these conditions, "and the Company reserves the right to cut off the supply for any of the following reasons: 1st, non-payment of bill when due; 2nd, for want of supply; 3rd, for non-payment of bill when due, etc."

The 2nd reason is in direct violation of the clauses in this agreement they made with the Town to supply power for industrial purposes on consideration of obtaining an exclusive franchise so to do. The worst clause in the whole agreement, in my opinion, are those dealing with the franchise and its continuation. Unless these the Town is to obtain possession of a public utility to purchase at its then actual cash value a plant which may be housed out of town, or fit only to be scrapped.

The Board of Trade for years past have spent time and money in endeavoring to induce animal industries to locate in the city, but all their efforts have been fruitless, and I understand that it is generally the case of power to operate that causes failure.

If "Taxpayer" can suggest any effective remedy for this condition of affairs, he will be doing a very great service to the city, but I think he must realize that from the few clauses I have referred to in the agreement, that they are absolutely water tight and have been drawn up in the sole interest of the Company.

LATEST NEWS

Rev. Adelard Delorme, at present interned in Beaupre asylum, Quebec, after being indicted by a grand jury on a charge of murdering his half brother, Raoul, was transferred by Justice Bruneau Thursday morning at Montreal and declared incapable of administering his large estate.

Arthur Melgion, who reached Montreal Wednesday, is expected to make some statement regarding the possibility of a Conservative nomination for the federal by-election in the Quebec-Carleton division today.

Four-year-old Gertrude Allison was burned to death Wednesday at Bury, Quebec, when her night gown caught fire.

Ten lives were lost when a gasoline speed boat sank early Tuesday morning on Fifteen mile lake, near Shelter bay, on the north shore of the St. Lawrence river, according to details received at Montreal Thursday.

An Alberta branch of the Catholic hospital association, with headquarters in Calgary, will be formed in the near future, it was decided at the first annual convention of the organization now being held at Brandon, Man. Other provincial branches will be formed.

If plans of the Canadian Horticulture association in building just outside of Edmonton will be approved, it will be the first country in the world to adopt a system of issuing patents to the originators of new breeds or varieties of plants.

A report will be made to the lieutenant-governor of Quebec on the mental condition of Rev. Adelard Delorme by Dr. Brodeur, medical superintendent of the Beaupre asylum and the appointment of an impartial medical board to examine the patient once more is considered likely, it has been announced.

Withdrawals from the provincial savings certificate funds at Edmonton have been very heavy this fall and there was in the month of October \$42,000 more withdrawn than paid in for new purchases.

The new home for mental defectives which the government is building just outside of Edmonton will be opened early in the new year, according to reports from the minister of health. About 200 inmates for the new institution are now in waiting, it has been announced.

A terminal elevator with a capacity of 1000 lbs. will be installed at the Hotel Macdonald, president of the Maple Leaf Flour Mills, according to reports from the minister of health. The elevator will be used for the purpose of moving flour from the mill to the hotel.

Walter Hoover, world's amateur sculling champion, was arrested at Duluth, Minn., Thursday, on a charge of having stolen a home for the purpose of the death in an automobile accident of Herbert Sealey, aged 45. The accident occurred at Madison several weeks ago.

Measures for the immediate relief of the foreign missionaries kidnapped by Chinese bandits were demanded of the Pekin government Thursday by the British, United States, Italian, French and Swedish ministers, who acted under instructions from their respective governments.

The projected monument between France and the Vatican was placed in the hands of the holy father Thursday by his decision.

Water-If water is made available at all times by providing a heater in the tank the cattle will drink often and the water will be kept warm and pure.

Feeds.-Oats and barley are necessary with a larger proportion of oats at the beginning and a larger proportion of barley towards the end of the feeding period. Three pounds per steer per day is sufficient to start on, gradually increasing to twelve pounds per day by the end of April. Hay, either native or cultivated, is good roughage, though cut straw will do until the last six weeks, when hay must be fed for several months.

Turnips or ensilage at 3 lbs. per day and the last six weeks, when hay must be fed for several months.

Summary: Good results of good type when prices are low. Dehorn. Provide adequate shelter and comfort. Provide available drinking water. Use home-grown feeds.

THE RESULTS OF THE BRITISH ELECTIONS

The British elections have resulted in the return of the Conservative party to power with a clear majority over all other parties combined. The old party lines have been so much obliterated by the war and its aftermath that it is hardly possible to say that the result represents a triumph for the old Conservative principles or the defeat of those of the old Liberal party, which in this case has been reduced to negligible proportions.

In any event, so far as the strictly domestic or internal politics of Great Britain are concerned, Canadians have no part in them other than as interested observers and should refrain from adopting a partisan attitude towards them. We expect the British people to perceive in Canadian domestic politics and what owe to Great Britain a like restraint.

It is the imperial and the international aspects of the election which are of importance to us. From that standpoint the result would seem to insure a continuance of the policy followed with so much success for many recent years—the policy of voluntary co-operation, consultation, and mutual support as between all parts of the Empire. The new government is likely to make every effort to preserve peace on the continent of Europe and the Near East in particular, so far as that is possible without sacrificing essential imperial interests.

It seems probable that the individuals composing the new government will be more acceptable to France than Mr. Lloyd George was, and in that respect the task of preserving cordial relations and a common policy with France will be made easier.

It is to be hoped that the recent change in British policy with respect to the removal of the embargo on Canadian cattle exports will be adopted by the new government, and there seems no reason to anticipate that this will not be the case.

The decisive defeat of the Labour Party seems to mark a reaction from the extreme policy of the last government and change not to say violent revolution, which for a time after the war appeared likely to sweep the upper hand in Europe and even to be a grave threat in North America. For this the Russian factor is largely responsible. Warned by that object lesson, the people are turning rather to sober business methods and hard work to repair the waste and destruction of the war, and for the time being at any rate the advocates of a short cut to the social millennium by a general policy of "Down with all authority" are discredited.

It is to be hoped that the change in this respect will not go over far, and that no attempt will be made to use the hard times, which are now to be faced, in order to exploit the poorer working classes and reduce them to anything approaching that state of half-starved, semi-serfdom which makes the story of the early part of this industrial era so dark a one.

It can be obtained, the co-operation of contented workers satisfied that they are receiving consideration for their welfare will produce better business results and make happier more efficient nations than any temporary successful policy of wholesale subordination.

THE NATURAL HISTORY SOCIETY AND BIRD LIFE

We give in this issue a report of the lecture given on Friday, 17th November, under the auspices of the Red Deer Natural History Society by Miss Marsh. We think that this Society and its work might easily receive wider support from the people of our city and district. The study of wild life is not only a pleasant recreation, but it is of no little importance to the community, especially in an agricultural community such as ours. Red Deer is singularly fortunate in the abundance of wild life to be found in and around it, and also in the presence of several people who are enthusiastic observers of that wild life and able to give valuable and interesting information about it to any who are willing to learn.

There has been in one year a great and beautiful growth of interest

in wild life throughout Europe and America. It has been stimulated by the publication of a multitude of books on the subject which usually combine accurate information with an attractive form of presentation of the facts. Nothing but good can come of this movement.

For the children in the schools it is perhaps of even more advantage than older people. It promotes habits of intelligent observation, builds up a fund of useful knowledge, and gives the children a thoroughly healthy form of recreation and interest. There was a time when the average small boy regarded a bird simply as a moving target for his catapult. It is to be hoped that that day is passing. The boy who knows something of the wild things and their ways is not likely to indulge in senseless cruelty towards them, and by that very fact is so much the better boy.

If older people would consider these things, they would perhaps be moved to take a keener interest and give a more generous support to the Natural History Society and its work. We venture to remind our readers of the lines of Coleridge:

He printh best who loveth best
 All things, both great and small,
 For the dear God who loveth us
 He made and loveth all.

FOREIGN POLICY OF / BRITISH EMPIRE

In speaking on the Near East situation on November 5, at the Cannon Street Hotel, London, Lord Curzon, the British Foreign Secretary, said: "In former days the policy of Great Britain was the foreign policy of Great Britain alone. Now it is the foreign policy of the British Empire. The initiative, and to a large extent, the executive action must necessarily remain in the Foreign Office, but the various Imperial conferences held in London fall statements were made to the Ministers assembled from all the Dominions on foreign affairs. Every aspect of them was discussed, a foreign policy for the whole Empire was framed, and in the intervals, when the Dominions Ministers were not here, full reports were sent to them, and on no matter of first-class importance was a decision taken without their being informed.

"This is a great change," continued Lord Curzon, "and it will readily be seen that the strength of the Empire is the position of the Foreign Secretary. He feels now that he is not only speaking for his own country, but for the British Isles, but for the State which constitutes the British Empire."

BOOSTERS AND CROAKERS

Every growing ambitious town is composed of three elements: Those who work patriotically, vigorously, and intelligently for its advancement; those who are in a state of apathy or indifference, and those who take a crooked delight in discouraging the efforts of others by ridicule and by a persistent denial that any progress can or has been accomplished and by boasts of every other town besides their own. The last class are called croakers, but they are really something worse, for their opposition does not arise simply from jealousy, but from that unenviable spirit which will neither act itself or suffer others to act.

SHOULD LADIES PROPOSE?

We have received from a fair correspondent a letter on the above subject, which we print elsewhere. The Editor of the News, being a mere man, does not dare to make any comment on the subject matter of the letter. Possibly the opinion of our readers may be of sterner mould.

SUPREME COURT

The sittings of the Supreme Court concluded last week.

In the case Staub vs. Larkin, breach of promise and seduction, the jury returned a verdict for plaintiff on the two counts of \$4,000 with costs. G. J. Norris, A.B., for plaintiff; Payne & Graham for defence.

The other cases were: Lizzie McLeister vs. J. J. McLeister. Action by Mrs. McLeister for an accounting of certain property and moneys claimed by her to have been brought into the marriage partnership from the estate of Wm. Oberholzer, her former husband, and use for alimony on the ground that she had been forced to leave defendant because of abuse and cruelty. The defendant claimed that plaintiff was not entitled by law to become the wife of defendant, though she was married to Guyman, Oklahoma. He also denied her claim for moneys, etc., except in part, and denied cruelty or misconduct. An arrangement was come to between the parties, to which the court gave effect, whereupon Mrs. McLeister was given \$1,100 without costs, in satisfaction of all claims, and a separation agreement

Parcel Post Insurance has been in operation just one year. During that period nearly 3,000 parcels have been accepted for insurance at this Post Office, and while this looks like a large number, it represents only a small percentage of the total parcels mailed.

We feel that the public and business houses in particular, do not make use of the parcel post insurance system to the extent that they should.

You insure your life, your family, your property, your auto, and numerous other things, yet not have your parcel post mail insured?

The service offered by the Post Office is second to none. It reaches every point in the Dominion, from the Atlantic to the Pacific; from the parallel to the Arctic regions. The Post Office is also prepared to accept parcels C.O.D.

We carry the parcel, deliver to addressees, collect all charges and remit same to you, all charging all risks while the parcel is in the custody of the Post Office.

You may send \$100 worth of goods to your customer in the country, and we will insure same, collecting the charge, remit same to you, all for the nominal fee of 30 cents, plus postage charges.

You carry no risk whatever. Advance your own interests. Advise your customers and let us add C.O.D. parcels by post.

The Post Office is at your service, give the Post Office Insurance and C.O.D. a trial.

Yours in the interest of efficient postal services.

THOMAS H. EDIS, Postmaster.

TURKS RENEW DEMAND FOR FULL CONTROL

Governor Rafet Pasha Gets Busy on Eve of the Lausanne Meeting.

Constantinople, November 19.—On eve of the conference at Lausanne, Rafet Pasha, governor of Constantinople, has renewed his demands for control of the police, magistrature courts, the telegraphs, passports and other branches of the civil administration.

Rafet, who has asked the Turkish police shall exercise control over all nationalities, while the allied governments shall limit its jurisdiction to its own soldiers and sailors. Rafet Pasha has also asked the allies to suppress all foreign post offices in Constantinople.

He has requested also that proposed British, French and United States colleges be placed under the Angora government's regulations.

The allies decide to relinquish their present control over foreign residents.

COUPLAND—HICKS

A very pretty wedding took place at "The Grove Farm," the home of Mr. and Mrs. John Hicks, on Wednesday afternoon, when their only daughter, Miss Myrtle, was united in marriage to Mr. William John Coupland, of Dumfries, Southwick, Scotland. The Rev. Dr. Crummy officiating. The bride, who was given away by her father, was charmingly attired in ivory tulle and carried a heavy bouquet of pink and white carnations and asparagus fern, the gift of the bridegroom. Master of the ceremonies was the groom's brother, Mr. Hicks, mother of the bride, was handsomely groomed in grey satin.

Immediately after the ceremony, a largely attended reception was held in which a dainty buffet luncheon was served. Amidst showers of rice and confetti, the happy couple left on the 4:30 train for Calgary where they will spend a short honeymoon. The bride travelling in a smart homespun gown with hat to match. Upon their return they will reside at Mr. Coupland's farm, Waskasoo S.D.

They were the recipients of some very handsome presents, including some very beautiful pieces of linen and lace sent by relatives and friends from Scotland. The guests included Mr. and Mrs. Pettit, Hooper, Shank, Mr. and Mrs. A. Hicks and Miss Edna Hicks; Messrs. George and Robert Coupland, Mr. and Mrs. Sheldrick, Mr. and Mrs. Thompson, Carstairs; Mr. and Mrs. Blair, Clearview; Mr. and Mrs. Ellenwood, Mr. Robert Ellenwood; Miss McLennan; Mr. and Mrs. Fred Parks; the Messrs. Parks; Mr. G. Norris, A.B., for plaintiff; Payne & Graham for defence.

The other cases were: Lizzie McLeister vs. J. J. McLeister. Action by Mrs. McLeister for an accounting of certain property and moneys claimed by her to have been brought into the marriage partnership from the estate of Wm. Oberholzer, her former husband, and use for alimony on the ground that she had been forced to leave defendant because of abuse and cruelty. The defendant claimed that plaintiff was not entitled by law to become the wife of defendant, though she was married to Guyman, Oklahoma. He also denied her claim for moneys, etc., except in part, and denied cruelty or misconduct. An arrangement was come to between the parties, to which the court gave effect, whereupon Mrs. McLeister was given \$1,100 without costs, in satisfaction of all claims, and a separation agreement

CRACK TWO SAFES, BUT ILL PAID FOR THE WORK

Hamilton, Ont., November 19.—Yegrum, equipped with a complete safe drilling outfit and obviously experienced hands at safe cracking, forced two safes early Sunday and failed in an attempt to drill a third when the premises of the Maple Leaf Milling company and the W. A. Freeman company were visited. For their night's work they received less than \$20.

DUBLIN GETS BAD ATTACK OF "NERVES"

De Valera Threatens Reprisals if Ekinke Children is Executed

Dublin, November 19.—Dublin is suffering from an acute attack of the nerves, partly owing to Ekinke De Valera's threat of reprisals if Ekinke Children, convicted of carrying arms, is executed, and partly owing to the horror of the Inchicore explosion and other happenings. One incident today testified to the state of tension.

When a lorry loaded with Free State soldiers passed slowly through a crowd holding a meeting of protest regarding the hunger strike of Mary MacSwiney and her sister, many in the crowd hoisted and shouted abusive epithets. A shot was fired by someone in the crowd, and the soldiers, who were in the line in the air, which provoked a panic. This was followed by machine gun fire, and three civilians are reported to have been wounded.

Annie MacSwiney is maintaining her vigil outside Mountjoy prison, where Mary MacSwiney has been staying since November 6.

HORTICULTURISTS ATTENTION

Mr. W. R. Reader, Parks Superintendent of Calgary, has kindly consented to give the Society a talk entitled "Fifty Years of Horticultural Experimental Work in Alberta," on Wednesday, November 23. Reserve the date.

CONDOR U.F.A.

A regular meeting of the Condor Local U.F.A. was held at the home of Mr. Scott Hastie on Saturday, October 28. The meeting was called to order by the Vice-President.

It was decided that Messrs. H. Meeres, A. L. Macdonald and Ralph Patterson be our delegates at the Red Deer Federal Constituency Association convention.

H. Meeres spoke of the Resolution committee. Moved by H. Meeres and Dr. Eastman that the resolution to the Justices of the Peace be referred back to the author to be re-drafted. Carried.

Moved by H. Meeres and S. Hastie that the old business be left over until the next meeting. Carried.

Moved by H. Meeres and N. Eastman that we endorse the suggestion of the new hall being a Community hall. Carried.

Moved by H. Meeres and S. Hastie that we adjourn until Saturday, November 18, at 8 p.m. Carried.

N. EASTMAN, Secretary-Treasurer.

POPLAR RIDGE

The sad news of Mr. Galtz' death came as a shock to many of us on Sunday, as it was only a short time since we had read in the papers that he was getting better.

The whole community took in extending the bereaved ones our deepest sympathy.

Mrs. J. Demas has been in poor health for some time past now. We congratulate Mr. and Mrs. Tooley on the arrival of a young daughter, November 15th.

Mrs. Peterson is spending the week end with friends.

At the monthly meeting, held in the home of Mrs. McLane, November 15th, it was decided to appoint Mrs. Reed as delegate of the U.F.W.A. Local here for the Federal convention to be held in Red Deer November 22 and 23.

Quite a number of farmers were still ploughing on November the 15th—so much said for our Sunny Alberta.

Just Arrived

My first consignment of RED TIP, NEVER-SLIP CALKS NEVER-SLIP SHOES and HORSE NAILS

The Shoes are all taped and punched ready to put on.

An Assured Income for Life

HE was a thoughtful man, and an affectionate husband and father. His income ran about \$6,000 per year. His insurance policies totalled \$5,000.

"Suppose anything happened to you, how long do you suppose \$5,000 would last us?"

His wife put the question gently. It was a difficult one to put.

"Five thousand dollars at the present rate of going would last this family just one year!" replied her husband.

"And then what?"

"There was no answer, save thoughtful silence. But in that silence one thoughtful and affectionate man was converted to the idea of adequate insurance—insurance that would yield an income for life."

Monthly Income Insurance issued by the Mutual Life of Canada is the means of providing for those dependent on you. Monthly Income Insurance perpetuates your income after you have gone. Income Insurance assures your family a monthly allowance after your death. Income Insurance is based on the proved fact that it is safer to leave a fixed income than a "lump sum."

Our nearest agent will be glad to explain the Mutual Life Income plan of Insurance. Or write direct to this office for our folder, "A Policy Providing a Guaranteed Monthly Income."

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

Calgary, November 17.

Beef—Choice steers and heifers are the only cattle in demand at Calgary; cows are very bad. Choice heavy steers, \$4 to \$4.25; choice light, \$2.75 to \$4; everything below this very drags, with good steers, \$3 to \$3.50; medium, \$2.25 to \$2.50; goat, \$1.75 to \$2.25; medium, \$1.25 to \$1.75; common, \$1 to \$1.25; canners down to 50c. Bulls slow also, with choice \$1.65 to \$2; medium from \$1.50 down. Calves slow, with tops \$2 to \$3; common, \$1 to \$2. Feeders, Stockers—Most of the steers that do not class as choice beef are going at common feeder prices, with choice feeders up to \$4.50 to \$7.75; common, \$2.75 to \$3; stockers, \$1.50 to \$3. Stocker heifers, \$1.25 to \$2.50, with bulk at \$2. Stock cows, 75c to \$2.

Beef—Edmonton market on choice light and heavy steers has been steady, but with the exception of choice heifers the market is drags. Choice heavy steers, \$4 to \$4.50; choice light, \$3.75 to \$4.50; good, \$2.75 to \$3.50; medium, \$2 to \$2.50; common, \$1.50 to \$2. Choice heifers will make \$3.25, but most good ones, \$2.75 to \$3; plain to common, \$2.50 down. Cows, \$2.25 to \$2.50; good, \$1.75 to \$2.25; medium, \$1.50 to \$1.75; common, \$1.25 to \$1.50; canners, 50c to \$1. Bulls unchanged from \$1.50 down, but not more than \$1.50. Calves lower, with best \$2 to \$3; common, \$1 to \$2. Feeders, Stockers—Except for choice feeders, market is drags on account of cut-backs from beef buyers; best choice feeders, \$3 to \$3.50; others from \$2.50 to \$3; stocker steers from \$2.75 down to \$1.25. Stocker heifers, \$1 to \$2; stock cows, 75c to \$2.

Market at Calgary strengthened during the week, and sales up to \$9.50 yesterday. More select bacon with an advance, bring \$10.45; shop hogs \$8.50.

Edmonton hog market has been firm, with an advance up to \$9.50 yesterday, when sales were \$9.50 to \$9.50; with select bacon at 10 per cent premium.

Calgary prices fairly steady, with choice hams down to \$7.50; wetters, \$6 to \$7; ewes, \$5 to \$5.50.

Edmonton sheep prices holding fairly steady, with choice lambs up to \$9.50; choice wetters up to \$7.50; choice ewes up to \$6.

Notwithstanding a very heavy rush of wheat to the markets and weather conditions favoring a considerable advance over the west, the prices during the past week have taken a good advance, and though there may be a decline or two, many think the extremely low value periods are over. Corn, grain and hay are in sympathy, though actual business has not been large in cash trading owing to the desire to wait what moved, which taxes transportation. In many parts of Alberta those who have oats are quite bullish, they predict a good demand for feed and later on for seed.

Poultry—Shipments light in southern part of the province, but Edmonton getting a lot. Calgary prices on light, unfilled birds, chickens, 12c to 12c; ducks and geese, 3c to 12c. Dressed shipments to Vancouver middle of December. Dairy Butter—Pamper table grade in good demand, markets paying 30c to 34c; dealers buying on grade from 26c down. Butterfat—Prices unchanged at 36c, 32c and 25c on grades; production keeping up well. Eggs—Business light in extras and specials; production keeping up well. Cassio, extras, 30c to 32c; No. 1, 25c to 26c; No. 2, 15c to 20c. Storage stocks heavy and moving slowly. Potatoes—Market still at standstill, 31c to 31c, Calgary deliveries.

Flour—Wheat has advanced flour to \$8.85, wholesale, cash basis. Bran and shorts each up \$2, to \$2 and \$2.25.

Continuance of fine weather keeps business very quiet. Calgary prices quoting \$10.50 to \$17 as buying prices, country points; timothy on Crow's Nest points around \$2; alfalfa, 37c to the shipper.

Hides—Home hides—Price advanced to \$1 to \$2. Sheep skins—Advanced to 25c to 30c. Cow hides—Prices unchanged, but tone not good. Long haired and frozen hides soon on and will sell lower.

Furs—Coyotes—Prices stronger, with \$5 to \$12 paid, later for prime skins. Muskrats—Market lower, with full killed 40c to 75c; winter killed, 75c to 90c.

ONE BOX OF ZAM-BUK
ZAM-BUK is acknowledged the most scientific and reliable preparation yet discovered for injuries and skin disease. Yet it costs no more than many inferior ointments and ointments. Nothing else has the same marvelous soothing, healing and antiseptic power as this pure herbal ZAM-BUK. Use it for all your skin troubles—eczema, Burns, Scalds and Sore Hands, to Chronic Eczema, Ringworm, Poisoned Wounds and Ulcers. NEVER USE WITHOUT ZAM-BUK. Does Far More Real Good Than a Score Boxes of Ordinary Salve.

HAS NEVER FELT THE RHEUMATISM

Since Taking "Fruit-a-lives" The Famous Fruit Medicine

P.O. Box 123, PARANAO, N.S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up.

I tried medicines I saw advertised, and was treated by doctors but the Rheumatism always came back.

In 1916, I saw in an advertisement that "Fruit-a-lives" would stop Rheumatism and took a box, and got relief; then took "Fruit-a-lives" right along for about six months and I have never felt my Rheumatism since."

JOHN E. GUILDENSON.
Box a box, 6 for \$2.50, trial size 25c. All dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

CONSERVATIVES WIN IN BRITAIN

Bonar Law Will Have 80 Majority in House

With 607 out of 615 returns in the parties stand: Conservatives, 346; Labor, 141; Liberals, 62; Georgians, 19; others, 15.

Ignoring the influence of the coalition, the former house under the present classification would have stood: Conservatives, 363; Labor, 168; Georgians, 119; Labor, 76; others, 19.

One of the most important factors in the election was the apathy of the voters. Out of 2,000,000 voters, only about 14,000,000 went to the polls, of which the Conservatives drew 6,000,000; Labor, 2,500,000; Liberals, 2,750,000; Georgians, 1,350,000 approximately.

London November 17.—The long drawn out fight between former Premier Lloyd George and Sir George Younger has for the time ended with victory for the chairman of the Unionist party, Younger and his adherents secured their political fortunes at the famous Carlton club meeting when they smashed the coalition and sent Lloyd George into the wilderness on the contention that the country was ripe for straight party politics and in the firm belief that the majority would support their conviction by sending the Conservatives to the house of commons with a good working majority.

Labor, although it failed to fulfill the hopes of its supporters, was successful at the dissolution, has done exceedingly well, rising from 76 to 138 seats. It is generally believed that Labor would have done far better for the tactical mistake in its advocacy for the tactical error.

Frank Hodges, secretary of the miners' union, expressed delight tonight at the fact that with one exception all the miners' candidates were successful and predicted that parliament would have to reconsider the question of nationalization of the mines. In the new parliament, Premier Bonar Law will command a majority over all parties combined of approximately 80.

While this cannot properly be described as a landslide, the Conservatives at the time of dissolution numbered about 350, it amounts, considering the peculiar circumstances of the time and the high hopes held by the Labor and Liberal parties of the return of the country to progressive views, almost to the same thing, and it may be supposed that the Conservatives themselves hardly expected such favorable results.

Slight Change in House

It means a parliament with little changes, except that Mr. Bonar Law replaces Mr. Lloyd George as prime minister and the former premier's attenuated following, reduced by the elections to under 50, will presumably henceforth be in opposition instead of working in co-operation with the Conservatives. The downfall of Lloyd George is the outstanding feature of the elections. The Coalition-Liberals at the dissolution numbered 129; they are represented in the new parliament by only 44 members. There will be many changes among the Conservatives' admirers that he failed to take the advice of some of his well wishers and retire for a time entirely from the political stage.

The Aquilina-Liberals, lately in the opposition, rose from 34 in the old parliament to 62 in the new, but they did not do so well as they expected.

Woman Vote Heavy

Another striking feature of the election is that the women voters have taken quite an unexpectedly strong interest in the struggle, their participation probably accounting more than anything else for the exceedingly heavy polling.

CANADIAN PACIFIC TRAIN SERVICE

General Change in Train Service, effective Sunday, September 17th, 1922

Times for trains at Red Deer will be:

Northbound:
Daily: No. 521 Arrive 10:45 a.m. Leave 11:00 a.m.
No. 525 Arrive 5:40 p.m. Leave 6:00 p.m.
Daily except Sundays:
No. 523 Arrive 10:45 a.m. Leave 11:00 a.m.

Southbound:
Daily: No. 522 Arrive 4:30 a.m. Leave 4:45 a.m.
No. 524 Arrive 10:45 a.m. Leave 11:00 a.m.
Daily except Sundays:
No. 526 Arrive 4:10 p.m. Leave 4:25 p.m.

Red Deer—Rocky Mountain House Monday, Wednesday, Friday—No. 613, Leave at 12:30 p.m.
Tuesday, Thursday, Saturday—No. 614, Leave at 12:30 p.m.
For further particulars apply to any Ticket Agent.

J. E. PROCTOR, District Passenger Agent.

**BOB EDWARDS DEAD, FOL-
LOWING ATTACK OF 'FLU'**

Calgary, Nov. 14.—R. C. Edwards, M.L.A., editor of the *Evening Opener*, died at his residence here at 10:30 tonight. For many months he had been prostrated with heart trouble brought on by an attack of influenza contracted while attending the spring session of the Alberta legislature. For the past two weeks he was in a state of lethargy, and passed away in peaceful slumbers. He is survived by his widow, there being no children.

Listen!
Have you heard about Pepsin? Pepsin is a scientific preparation put up in capsule form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.
Pepsin contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.
In a word, while no liquid or solid can get to the lungs and air passages, these Pepsin capsules there direct, and at once commence healing.

FREE TRIAL. Cut out this coupon, fill in name and date, write across it the name and date of this paper, and mail it (with 10c stamp to pay return postage) to Pepsin Co., Toronto. A free trial bottle will then be sent you. All druggists and stores sell Pepsin, 50c. box.

FACIST TAKE OATH OF SELF-DENIAL

Rome, Nov. 6.—As an example of the new spirit which the Fascist have succeeded in instilling in the country may be cited as an oath which has been taken voluntarily by all the members of the Fascist movement. "By the blood of our 2,000 martyrs, whom we invoke as witnesses and judges of our faith, we swear that for one year, first, we will not wear our national or keep in our houses anything made of gold, silver or precious metals or stones; second, we will give all superfluous ornaments of working ardently without pay for the good of the country; third, we renounce all worldly amusements which are not expressions of civic joy for our nation's progress; fourth, we will give all superfluous ornaments to a fund for supporting enterprises having goodness, civilization, beauty and improvement as their object. The example of the Piacenza Fascist is being imitated all over Italy."

GREAT BRITAIN GUES

NEW YORK STATE
Great Britain is suing the United States before the Arbitration Commission provided for under the treaty of 1910, for the alleged violation of the 1908 Canadian customs law. The United States has offered to pay \$24,000 a year forever. In 1908 the Canada Indians ceded their lands to the United States. The State in return agreed to pay \$24,000 annually to the Cayugas or their heirs in perpetuity. New York charged that at the outbreak of the war of 1812 the Cayugas joined the British and the United States, some of whose descendants are now living in Canada. Britain demands payment of arrears, with compound interest, about \$3,000,000 in all, and that the payments continue to be made regularly in the future.

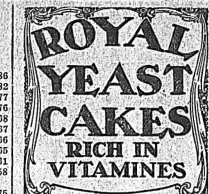

EYES REOPEN AT BAPTISM

Grimsby, Eng.—Shortly after birth, the baby of a Grimsby woman apparently went blind, and despite treatment by a doctor and nurse, did not open its eyes for ten days.
On the tenth day Mrs. Patchett, of Hildyard Street, the grandmother of the child, took it to St. John's Church to be baptized.
There were a number of other mothers present with children, and she asked the Vicar, the Rev. W. G. Smith, to pray with the assembled mothers for sight to be restored to the child. The Vicar offered up several prayers, and very shortly afterwards the infant opened its eyes. "It was only for a moment or two," said Mrs. Patchett, "but the other women saw it, and we were all very much affected."
On the following day the child again opened its eyes for a longer period, and since then its condition had steadily improved.
Mrs. Patchett's story is corroborated by the Rev. Canon, "I do not claim it as a miracle," he said, "I have my own views on the subject, but considering the amount of publicity that has been given the so-called miracles and faith cures of late, I think this is certainly a marvellous and interesting incident."

ROYAL YEAST CAKES
RICH IN VITAMINES
MADE IN CANADA
The importance of Vitamins in food is being recognized at the present time to a greater extent than ever before. It has been conclusively demonstrated that yeast is rich in this important element. Many people have received great benefit physically simply by taking one, two or three Royal Yeast Cakes a day. Send name and address for free copy "Royal Yeast Cakes for Better Health".
E. W. GILLET COMPANY LIMITED
WINNIPEG TORONTO CANADA MONTREAL

THE U. G. G.
SCORES LOSS

Politics Doesn't Mix Well With Business.
Winnipeg Tribune: Shareholders of the United Grain Growers, Limited, have been notified by letter from the Secretary, E. J. Freeman, that, owing to the losses sustained during the past financial year, the company would be unable to declare a dividend at the annual meeting in Calgary on Nov. 20. Not only is the company compelled to make the dividend, but it also has to draw up its reserve in order to meet the loss.

The text of the letter is as follows: To All Shareholders, United Grain Growers, Limited. Dear Sir:—During the past week the directors have been giving consideration to the accounts of the company for the financial year which closed on Aug. 31. The result of the year's operation was a loss for the first time in the history of the company.

This is due to the fact that many of the company's elevators, as well as its shareholders, are located in districts where the crops were especially poor last year, which meant a reduced volume of grain to handle and consequently smaller earnings from both country and terminal elevators. In addition, substantial losses took place in the Machinery and Supplies department of the company, which is the shareholders' own risk, and taken up some years ago with a view of reducing the cost of these necessities. In spite of the fact that this respect our experience has been the same as practically every business in the continent and the world, the experience of a great many individual farmers, in the face of conditions a successful year could scarcely be expected.

For these reasons our directors have been unable to declare a dividend for the current year, which is the first interruption in the payment of dividends since the company commenced operations in the year 1906. The reserves of the company will be drawn on to make good the losses. Fortunately, in the days of business prosperity the foundations of your company were strongly built, and reserves were established to provide for a period of adverse conditions such as have been passing through the world of late. The financial position of the company is still very strong, and we have experienced no difficulty in arranging the necessary credits to carry on our business for the year. In spite of the fact that our results last year, the shareholders have every reason to look forward with confidence to the future of the company.

In due course balance sheet statements and reports will be printed and forwarded to you. This year we look for satisfactory results from the operations of the company. Although we have many elevators where crops are light in Alberta, our Manitoba and Saskatchewan elevators will handle a larger total of grain than for several years, and a large quantity of platform loaded grain is reaching us from points where we have no elevators. Conditions enable us to handle this business more economically than previously. As our stock of machinery has been restocked on a low basis, no further losses on machinery are anticipated.

There is one way we can make use of dividends for the future: if every shareholder will ship all his grain through the company and use the same principle when he is shipping live stock or buying supplies or machine insurance, there can be no doubt about dividends. If that had been done in the past by every shareholder, we could have paid a dividend this year. Not much stress has formerly been laid on that point and consequently many shareholders have allowed their business to be diverted to other institutions whenever they are offered or aware of other advantages to his company. Such shareholders did not realize that, as they will receive no dividends, they were doing to their own company and consequently to their own interests. It will pay all of us in the future to remember our interests as shareholders, and to see that every cup of grain we control is sold through the company, and that all other business possible is handled through United Grain Growers, Limited.

be represented by their delegates, as provided for in the by-laws of the company.

Yours very truly,
UNITED GRAIN GROWERS LIMITED,
(Sd.) E. J. FREEMAN, Secretary.

**BITTER ATTACK
LAUNCHED UPON
B. C. LIQUOR ACT**

Western Province Dubbed by Speaker "Corkscrew of Canada"

Winnipeg, Man., November 15.—A vigorous attack against the British Columbia Liquor Act was launched at the temperance convention here last night by the speaker, Mr. E. J. Freeman, president of the British Columbia Prohibition Association, who said the measure, which made British Columbia "the sink-hole of the Dominion; plunged much of the social and moral life into debauchery; was forcing the government deeper and deeper into the mire, and made the name of Canada a by-word along the Pacific coast." He was enthusiastically applauded by the delegates, who are expected to fight the coming referendum in this province. Battalions of those who could not live a mile from a bungalow had marched upon Vancouver, and were still coming from all quarters, dragging Vancouver down to degradation. Organized fleets of whisky boats were carrying crime, even murder, down the coast, and making Canada's name a by-word. Mr. Cooke said, British Columbia was being branded as the land of the corkscrew, where the government stood behind the liquor traffic, and the liquor traffic was the government's backbone. He had the price. The liquor industry was steadily increasing its grip, and instead of the government controlling liquor in British Columbia, the liquor interests of all Canada were using it as their barometer.

Respectable apartment houses were selling liquor, public places were becoming open saloons, and young women were carrying liquor in silver flasks to the fashionable parties. Two girls, forming a toast, were doing their utmost to smash the laws, and were endangering international re-

lationship with the United States by carrying on illicit traffic across the border in defiance of both United States and Canadian regulations. Blind pigs were wide open. Mr. Cooke paid a tribute to Attorney-General Manson, who, he said, was making a splendid attempt to restore the majesty of the law when the moral force was dead, and asserted that had Mr. Manson's predecessor been of the same mould, the province would not have become the sink-hole it now was.

LESLIEVILLE

November 12, 1922

The largest crowd that ever came together under one roof in Leslieville assembled last Friday evening in the Community hall as the guests of the Leslieville Board of Trade. Over 200 people were present, and the hall was literally packed. Mr. A. S. Rodd made a splendid chairman and lent a very acceptable dignity to the entire proceedings. In a few well-chosen remarks he outlined the origin, aims and achievements of the Board of Trade, and pointed out that concerted action was the only way by which a community could be properly built up. He then introduced the following programme, every item of which was listened to with respectful attention: Chorus, "The Maple Leaf"—Children Recitation—Miss Margaret McKinnon (encore). Solo, "My 'Ain' Follies"—Mrs. McBeth (encore). Recitation—Master Glenn Bailey. Burlesque—Messrs. Carland and Gormley. Boxing Contest—Ernest Johnston and Morley Turner. Piano Impersonation—Mr. Webster (encore). Recitation—Theresa Speers (encore). Song—Mr. Ensign (12 encores). Song—Mr. C. Thibault (encore). Recitation—Master Hubert Carland Solo—Mr. Cyril Wheatley (encore). Duet—Mrs. Dixon. At the suggestion of the chairman, the entire audience arose and stood for an instant with bowed heads as a token of sympathy towards Mr. Hazen, the former station agent here, who had died last week. The tomb close over all that was mortal of his beloved wife. The singing of the National Anthem then brought the proceedings to a close, after which, as far as possible, every one present was served with cake and coffee. England's or-

chestra, from Red Deer, rendered some fine selections meanwhile. After all present had partaken of the refreshments, the floor was cleared and the orchestra engaged in until early morning, the above orchestra supplying the music. We understand that over thirty new members were added to the Board of Trade during the evening. Membership fees \$1 a year. Objects of the general betterment of the hamlet and district, and the furtherance of any schemes that may be of the greatest benefit to the greatest number, and the inculcation of the "get together" spirit generally.

Look out for our next big doing. Committee meeting November 24.

THE LATE MRS. WARREN

The funeral of Mrs. G. S. Warren, of Benito, to the Evans cemetery last Saturday was attended by a large number of sympathetic friends gathered to pay their last respects to one who has dwelt with them the past four years. The late Mrs. Warren, whose maiden name was Gertrude A. Warren, was born at Guelph, Ontario, where her parents still reside. Mrs. Warren, with her husband and family, have been residents of Alberta since 1914, spending most of the time in Calgary, but finally moving to Benito in 1919. Mrs. Warren has been a great sufferer for the past two years, but through it all she was always anxious to attend church and the Ladies' Club, and every few days was up and around the village till the final call came, on Tuesday evening at seven o'clock. The floral remembrances included those sent by the Red Deer Lodge, Knights of Pythias; Calgary Lodge, Knights of Pythias; Benito Ladies' Club, Benito Booster Club, Manse, Harris Co., Calgary; Alberta Pacific Grain Co., Calgary; Mr. and Mrs. F. G. Jenkins; Benito; Mr. and Mrs. P. B. Wilson, Calgary; Mr. and Mrs. B. B. Wilson, Irricana; Mr. and Mrs. K. D. Barton, Calgary; and the family. The pallbearers were brother Knights of Pythias of Mr. Warren's of Red Deer Lodge. The funeral service was conducted by the Rev. Mr. McKelvie, his pastor assisted by Mr. E. S. McKelvie. Mrs. Warren leaves to mourn her loss her husband and two children, Cora and Iva, also a sister in Calgary, Mrs. Barton, besides her aged parents and brothers and sisters in Ontario.

Rice Fields of Japan

It was with great surprise that most Canadians learned that, taken the world over, rice is a more important food product than wheat. Nevertheless, the statement is true. Asia's teeming millions consume more rice than other people do wheat. Therefore, Japan, as the world's greatest rice producing country is to millions of Asiatics the world's granary as Canada begets to be to the world of wheat eaters.

But Japan is a small country; it has to do its farming in an intensive way, every acre of its soil must be put to use, and every available inch of water must be harnessed to the land power must work to keep the land productive. That is why most of the actual work in the rice fields is done by girls, who smile and chatter as they everlastingly wading in the glorified mud puddles of rice fields were a justification rather than a labor. But the smile is characteristic of the Japanese, working or playing. It is a national trait. During most of the year Japan is a smiling land, and no doubt the people come to their propensities honestly enough. They are not so much in the mud fields. If the water isn't there in the first place it has to be pumped up by the water power. These are always worked by men because it is one of the most difficult jobs of one-man power. These are always worked by men because it is one of the most difficult jobs of one-man power. These are always worked by men because it is one of the most difficult jobs of one-man power.

The grain ripens to harvest, and the fields are drained off, and after the men have cut down with their sickles the girls and children again take up their labors. They are then in a position to operate. Large metal combs stand in the water, and the girls step in

- (1) The harvest time when the whole family goes in the fields to help gather in the crop. The rice has been allowed to run off the fields and the straw is cut close to the ground.
- (2) The rice is cut with heavy fans and a bright smile.
- (3) The young rice shoots are planted by hand by girls who wade in the warm, muddy water that covers the fields.
- (4) The water wheel that floods the rice fields.
- (5) The rice is cut with heavy fans and a bright smile.
- (6) The young rice shoots are planted by hand by girls who wade in the warm, muddy water that covers the fields.

New shipment just arrived at Brody's of Ladies' Homespun Dresses at an unheard-of price—\$5.95.

Don't forget the whist drive on Friday night, Nov. 24th, 8:30 in the Alexandra hall. Play will start sharp on time.

The Catholic Ladies' Aid will hold a bazaar in Alexandra hall, on Saturday, November 25. Come and try your luck at the fish pond.

The W. A. of St. Luke's will hold a sale of plain and fancy articles, home cooking and ten cent tea on Saturday, Dec. 2nd, in Alexandra Hall, from 3 to 6.

The regular monthly meeting of the W.C.T.U. will be held in the Presbyterian Hall, on Friday, November 24th, at 3:30 p.m.

CARD OF THANKS

I would like here to sincerely thank the hostesses for their kind hospitality, which the girls greatly appreciated; also the other members of the billing committee, especially the three girls of the Presbyterian church, Stella Johnson, Helen Brown and Jean Bannerman, who took full charge of the billing for that occasion.

Mrs. F. Searancke, Conveger, Billings Committee.

Keep in mind the Baptist Xmas Bazaar on Saturday, December 2nd, in Alexandra Hall. Sale of home cooking, fancy work, etc. Get your Xmas gifts here. Business men's supper at 6 p.m.

At next time in the car department at the Canadian Pacific Ogden Shop worked full time. This was the official announcement made at the offices of the general superintendent of the Alberta Division. The department mentioned is one of the largest at the shops and will effect car repairs and help. It is noted that the heavy movement of grain is the cause of the increased work. The announcement has been received with satisfaction by the men concerned.

Sherbrooke—Three years in the St. Vincent de Paul penitentiary was the sentence on Joseph Couture, of the township of Langlois, for placing a bolt and a spike on the Canadian Pacific Railway track. The case was heard before Judge J. H. Lemay, in the District Magistrate's Court, when the accused was charged with placing obstructions on the railway track with intention to destroy valuable property and endanger human life. The accused immediately pleaded guilty and, after receiving the usual warning from the court, was committed for trial. He asked for a speedy trial before Judge Lemay. Counsel for the plaintiff advised the court that the accused had a rather bad record and claimed that he had previously served one term of two years and two separate terms of four years in jail.

The court commented upon the seriousness of the offence insofar as valuable property and scores of lives were threatened, and pointed out that he was liable for a term of five years, or even a term for life, if it were proven that the obstacles had been placed there intentionally.

Regina—"There is so much wheat in some parts of Southern Saskatchewan that it will take until next summer to get it shipped out of the country," said J. H. Chown, superintendent of the C.P.R. at Regina, last night.

Mr. Chown made this statement upon his return from a trip over the southern lines of the Regina district, the trip including the Arcton line as far south as Stoughton, and then to Weyburn as far west as Assiniboia and thence up the Soo line to Moose Jaw.

"The wheat crop in some of the districts in this area is as good or better than 1915," said Mr. Chown, "and now that threshing is well under way, the remarkable crop is being demonstrated. Where people expected to get 15 bushels to the acre, the threshing machine is registering 25 bushels, where 25 bushels were anticipated, they are getting 35 bushels and where 30 bushels were estimated the yields are running close up to 50 bushels to the acre."

"At Vantage," continued Mr. Chown, "I walked up to a threshing outfit operating not far from the station and engaged the thresherman in operation. He told me the field he was threshing was running 48 bushels to the acre. The grain was uniform, well ripened, a good color and an excellent sample of wheat in every respect."

Edmonton—A good harvest and the existence of a plentiful supply of foodstuffs in all parts of Canada is the basis upon which C. E. E. Usher, general passenger traffic manager of the Canadian Pacific railway, with headquarters in Montreal, makes the encouraging prediction that business is bound to show considerable improvement during the next few months and soon to reach the level of the best of pre-war times.

Mr. Usher was a visitor in Edmonton in the course of a tour which took him as far west as Vancouver.

Passenger traffic business is a worthy barometer in the testing of general business conditions, and Mr. Usher announces that the year, from a passenger traffic standpoint, has been an excellent one, while it is felt certain that the coming winter and spring will see still further increases. Tourist travel during the past season has been almost as good as it ever was, while reservations made for winter traffic, including ocean cruises, are exceptionally numerous at this time.

Then, again, traffic to and from the old country during the past few months has taxed accommodation to capacity, while steamers plying between the west coast and the Orient have also been doing great business.

Mr. Usher is a strong enthusiast for an open door policy of immigration into Canada, and in speaking upon the topical subject he declared that there would come a time before many months had passed when Canada would be setting up a cry for labor.

National Industries—

Your Security

If you believe in the future of Canada, you can have full confidence in her basic industries. The Corporation bonds we offer are first mortgage, and therefore a first call, upon such properties, valued at many times the bond issue. In addition, the companies have proved their ability to earn bond interest over and over again.

See Us for a list of industrial bonds paying 6½% and over.
